

# Error Log File

Log file is a special text file which contains all camera errors in the following format: *line number, time, error number*.

Error number can be deciphered by referring to [Error Codes](#) section. Log file can not be deleted even if the device memory has been formatted either by the SMS command or using the Mobile App.

You can request the Log File using the [SMS command](#) or the [Mobile App](#).

## Log file Example

0008 - line number of the latest record

|                           |
|---------------------------|
| 0001[19.09.2018 01:49]316 |
| 0002[19.09.2018 22:20]101 |
| 0003[19.09.2018 22:26]101 |
| 0004[20.09.2018 00:08]101 |
| 0005[21.09.2018 00:02]316 |
| 0006[21.09.2018 00:02]316 |
| 0007[23.09.2018 21:34]518 |
| 0008[23.09.2018 21:34]718 |
