

Yandex Disk

The KUBIK camera can save the pictures to [Yandex.Disk](#). Due to this, you can conveniently save the photos taken by the camera in one place and you will always have access to them. To activate this feature, you need to have a [Yandex account](#) and configure the camera using the Mobile App or SMS commands.

Using Yandex Disk you can be sure that your photos will be reliably saved.

You can easily get access to your photos using the Yandex Disk Mobile App for Android and IOS or the [web interface](#).

Other sending options

- [FTP](#)
- [GPRS](#)
