At any time, you can request an update of device information by clicking the "Update Data" button.

If an error occurs while receiving information about the device, you will be prompted to repeat the request. An error can occur if the signal is poor. Try moving closer to the device and retry.

You can get to other sections of the App from this screen using the menu at the top of the screen.

You can also disconnect from the current device at any time by returning to the search screen. The disconnect button is at the top left of the screen.
