

MMS Settings

The screenshot shows the MMS Settings interface in the KUBIK application. The interface is in Russian. At the top, there is a header with the KUBIK logo and a hamburger menu icon. Below the header, there are four icons: an information icon, a camera icon, a folder icon, and a settings icon. The main section is titled 'Настройки MMS' (MMS Settings). It contains several input fields: 'APN', 'Порт' (Port), 'Аккаунт' (Account), 'Пароль' (Password), 'URL', and 'IP'. At the bottom of the screen, there are two buttons: 'НАЗАД' (Back) and 'СОХРАНИТЬ' (Save).

In this section you can configure [MMS](#).

If the setting is not configured, the camera will not send.

You can get the settings data from your operator

Other sending settings

- [FTP Settings](#)
- [GPRS Settings](#)
- [MMS Settings](#)
- [SMTP Settings](#)

- [Yandex Disk Settings](#)
